

What's In It for You

- **Great content, great instruction:** Our classes are up-to-date and our instructors want to help you learn so you can boat more often and with confidence.
- **Local expertise:** Learn or develop your boating skills with teachers who know your local waters.
- **Flexibility:** With in-depth courses and one-session seminars, you can learn as your schedule permits.
- **Just-in-time training:** Learn what you need to know about a single topic in about two hours.
- **Convenience:** Learn in a classroom near you or online. Some topics are offered as live webinars with meet-the-expert panelists.
- **Hands-on coaching:** We'll help you continue learning on the water.

Our educational programs are designed for today's boaters, including outdoor enthusiasts and sociable adventurers who enjoy boating.

America's Boating Club® helps new and experienced recreational boaters **learn** boating skills, **engage** in the fun with other boaters, and **connect** with the boating community. We enjoy all types of recreational boating, as well as social and community service activities. We are a non-profit organization, and our classes are open to members and the public. Join us!

America's Boating Course (ABC3) offers a comprehensive introduction to recreational boating, and successful completion of **ABC3** meets the education requirements for boater operator cards in most states. Our advanced curriculum includes courses, seminars, and hands-on training designed for recreational boaters who want to grow in their knowledge, skills, confidence, and enjoyment on the water.

Whether you prefer to learn in a classroom setting, online, or on the water, our friendly, skilled instructors will help you learn the way you want to learn. See what's on offer at americasboatingclub.org or contact your local squadron.

Boat Systems

- AIS Electronics for Boaters
- Using GPS, Multi-Function Display
- Using Marine Radar
- Using VHF/DSC Marine Radio
- Propane Systems on Your Boat

Cruising & Cruise Planning

- Crossing Borders
- Cruising Boats and Systems

On-the-Water Training

Choose **on-the-water training** and enjoy having a coach as you get to know your boat and strengthen your boat handling and navigation skills. Whether you're the captain or the crew, we've got a program for you.

Jump Start

Just bought a boat or joined a boat club? Jump Start provides one-on-one coaching on your boat in a training program designed just for you.

Hands-On Training

Want to practice basic power boat handling skills? Hands-on training includes 2 hours of classroom training and 4-6 hours of on-the-water skill demonstrations and supervised practice. We offer hands-on training for medium- and large-sized boats.

Boat Operator Certification

Ready to have your skills certified? Certification is available at four education and skill levels:

- **Inland** – Basic pre-launch and powerboat operation skills without marine electronics
- **Coastal** – Coastal operation and navigation using marine electronics
- **Advanced Coastal** – Extended coastal or inland planning and execution using marine electronics and traditional methods
- **Offshore** – Global cruising using marine electronics and traditional methods

Contact your local squadron for availability and schedules or explore what's on offer at **America's Boating Club Learning Centers LLC (abclc.org)**.
